

## Take Time for God -Exodus 20:8-11

To meet God means we must reorder our view of reality

### 1. Take time to remember

He is the creator

We are the creation

- Why do we need to remember who we are and Who God is?
- What does an absence of work allow us to do?
- What does work at the proper time allow us to do?

### 2. Take time to reconnect

Make the day different because He is different

Make the day different since we are different

- How is a day to worship, holy? How can we make it so?
- If work on Sunday is not optional, how can you still make some time different?

### 3. Take time to recharge

We are not made for endless work

We are made for ceaseless worship

- Why is it hard to find time to recharge?
- Why is it easy to over-recharge?
- How does God's example in the first week influence your current week?
